To the Highest Bidder Without Reserve

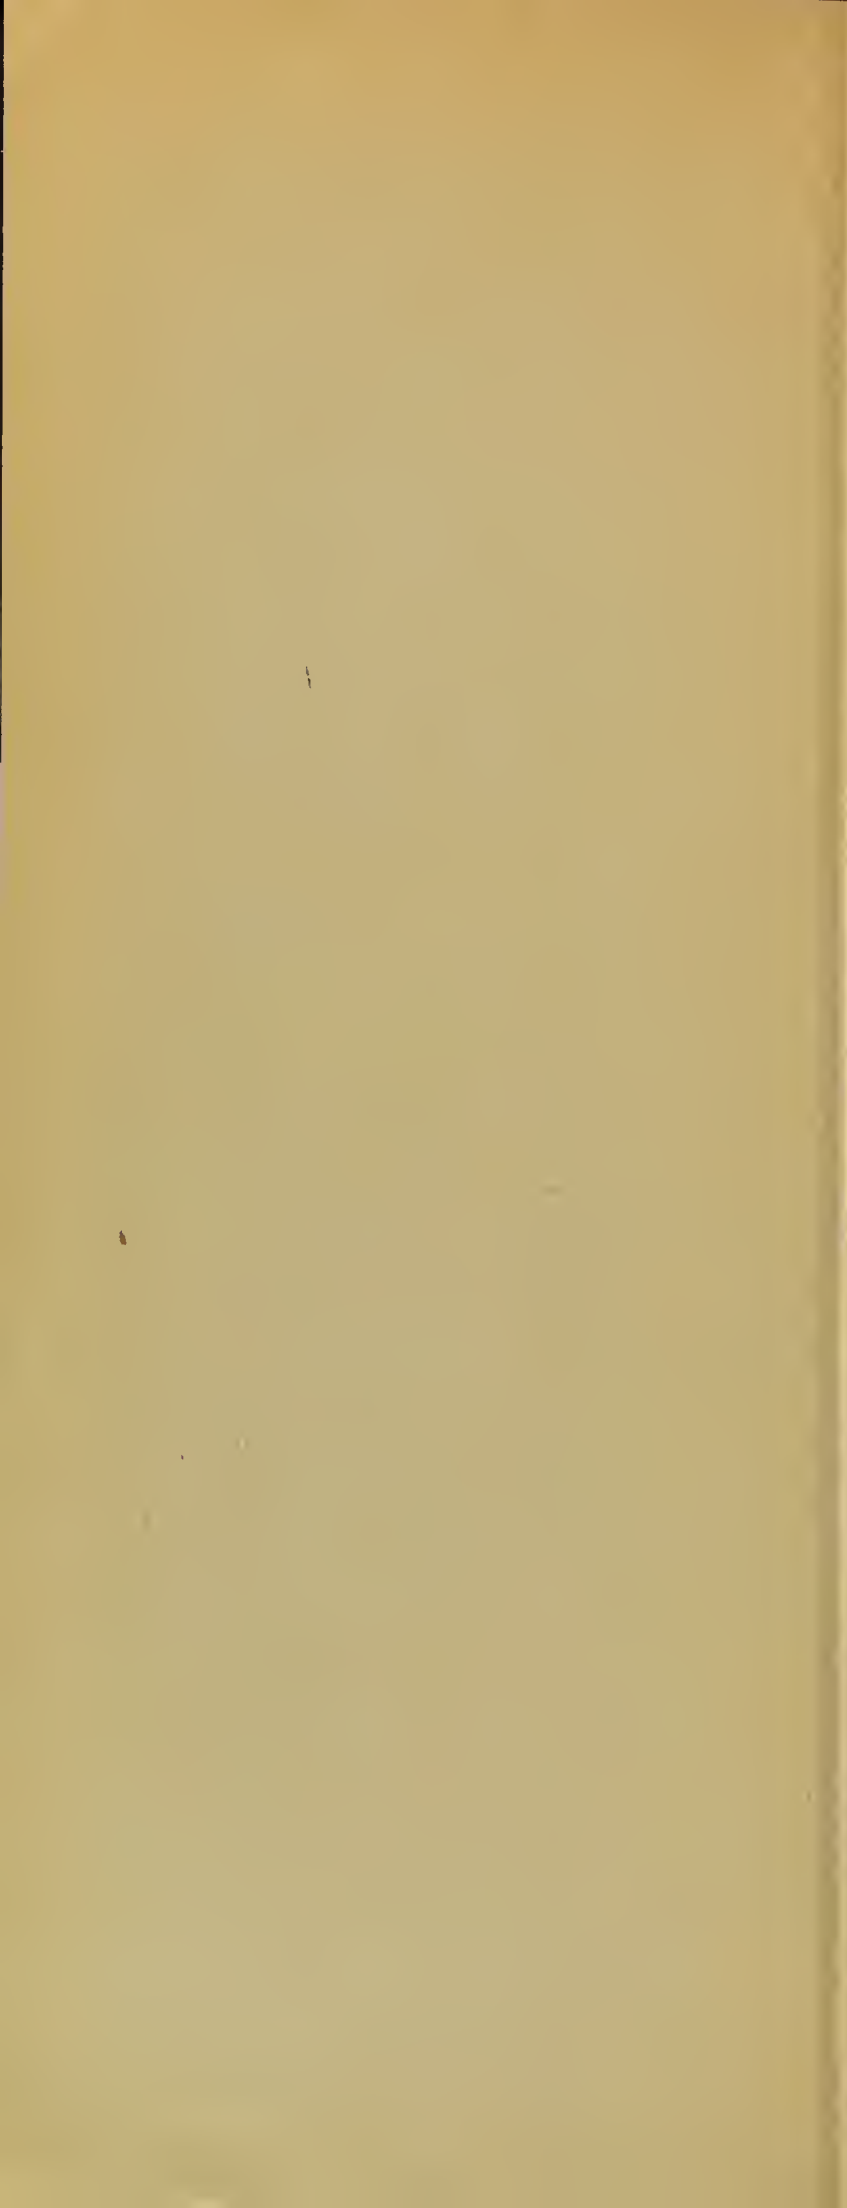

By the Cataloguer

M. H. BOLENDER

P. O. Box 63

San Marino, California

TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are my mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue), and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25% of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 3% state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for 50 cents.
9. Please send your bids now as there is little time left before the sale date.

UNITED STATES SILVER HALF-DOLLARS

- 185. **1795 half-dollar.** Flowing hair type. 18-berry reverse. Haseltine No. 5. **Beistle 5a-I.** Very fine. Rare so choice, and would be a bargain at \$40. Important early piece for type set.

WHOLESALE LOTS OF SILVER DOLLARS

(This is by far the best offering of rolls of uncirculated Morgan dollars ever made in my 187 auction sales. Collectors and dealers alike will avail themselves of this opportunity to stock up one of the most popular series, which has such a good future because the coins are still reasonably priced. In preparing the estimates, where the Standard Catalogue differs from the Guide Book I have quoted whichever figure is the lower, to be conservative.)

UNITED STATES PAPER MONEY

Note: The following splendid collection of paper money of the United States was selected from an outstanding private collection in California assembled over a period of many years. Included in this collection are early American colonial bills, featuring the excessively rare New York 50 shillings note dated 1709, many rare and interesting obsolete bills including \$11, \$12, \$13, and \$14 notes; fractional currency, and old large size bills. In listing the latter paper money below, the reference book used is **Paper Money of the United States** published by Robert Friedberg in 1953, which is now the standard authority on the subject. The Friedberg numbers and valuations are given. Interest in the paper money series has increased so greatly in the past few years, that the demand for this material far exceeds the supply, and present prices, while they seem high to us old timers, will in a few years be considered low. The great increase in the number of collectors, combined with no increase in the supply of paper money, means nothing but higher prices in the near future. The time to buy such material is when it is offered.

U.S. PATTERN COINS & TRIAL PIECES (Formerly the property of King Farouk of Egypt[†])

NOTE — If you are an earnest collector of American coins, you should get more acquainted with the pattern coins, for they are closely connected with the regular issues collected, and many of them are more beautiful than the adopted designs. Also, the pattern coins are still reasonably priced, considering their rarity, and there is genuine collector's pride in owning at least a few coins, that other collectors do not have. With patterns this is easily possible, and I can tell you that it will enhance your collection to add some pattern coins. Not all of us may collect nearly a complete collection of them as King Farouk did, but most of us can get a few, even if you are a specialist, and collect only small cents, in which case, add a few pattern cents for thrilling interest. You may buy most of these at good discounts below the prices which King Farouk paid for them.

992. 1836 **U.S. pattern 2c.** Spread eagle on cloud; around UNITED STATES OF AMERICA 1836. Rx. TWO CENTS in large wreath. Size of a small cent, but thicker. Not in Adams-Woodin's book, but type of AW-56. Copper, silvered, plain edge. (Envelope shows the King bought it as AW-56 in nickel). Unc. V. rare, and the first 2c piece made at the mint. Interesting experimental piece of same year and same engraver as 1836 Gobrecht dollar; also the first gold dollars (1836) were considered and rejected, as were these 2c pieces, and thus not struck for circulation. \$40.
993. 1838 **pattern half-dollar.** Beautiful large bust, dies by Kneass. 13 stars around, date

below. Rx. spread eagle with 4 arrows. Around: UNITED STATES OF AMERICA HALF DOLLAR. Silver, reeded edge. AW-70. Not over 25 struck. Proof. A very popular pattern. \$75.

994. 1850 pattern "Ring-cent", unperforated variety, dime size. USA ONE TENTH SILVER, circle or ring center. Rx. CENT 1850. Not in AW, but similar to AW-113 struck in copper-nickel. Unc. Olsen coll'n. lot 487 ten years ago at \$52.50. It was there described as probably unique.
995. Same as last, but perforated variety, and struck in copper. Coins of some other countries have been made with hole in center to save metal, and still keep size. AW-116. Ex. fine. About 50 coined. \$25.
996. 1850 pattern cent. Obverse like reverse of above lot, CENT 1850, circle in center. Rx. ONE CENT in wreath. Unperforated. Struck in nickel. AW-139. Proof, with high wire edge. More rare than last, and usually missing in even large collections. Our "cent without a country" no mention of U.S.A. \$40.
997. 1851 pattern cent. Obverse with seated Liberty, stars & date, similar to 20c piece. Rx. 1 CENT in wreath. Copper, plain edge. AW-148. Size of a 5c nickel. Obverse engraving looks unfinished, very much so. Ex. fine. Not over 25 struck. \$30.
998. 1854 pattern cent. Flying eagle, stars, date. Rx. ONE CENT in small wreath; around UNITED STATES OF AMERICA. Large size 25 mm. Copper proof, with high wire edge. AW-189. Collectors of large cents need one in their set. \$20.
999. 1858 pattern cent. Flying eagle, copper-nickel. Obverse same as regular issue, with small letters. Rx. ONE CENT in oak wreath (Regular issue has tobacco wreath). AW-243. Not over 75 struck. Proof. This interesting coin, formerly owned by a King, will fit well into your collection of small cents. \$50.
1000. 1858 pattern cent. Flying eagle regular obverse as last. Rx. ONE CENT in laurel wreath. Mule of obverse die of AW-243 with small letters and reverse die AW-244. Copper-nickel, dull proof. Unknown to Adams & Woodin. \$50.

1001. (1859) **U.S. pattern double-eagle (\$20)**. Obverse the Paquet design, somewhat similar to the Amazonian design by W. Barber in 1872 used on some pattern coins then. Liberty seated l., with fasces, shield, & eagle. No date. Reverse: same as regular \$20 gold designed by Longacre. Copper proof. AW-278. Not over 8 specimens coined. \$100.
1002. **1859 pattern coin for gold dollar**. Similar to regular type then in use, but with much larger letters both obverse and reverse. Unknown to Adams & Woodin, who list one of regular dies in copper (AW-283). This from very different dies is in copper gilt as made at the mint. Unc. Only one seen. From Farouk coll'n. as are all in this list. \$60.
1003. **1859 pattern half-dollar**. Liberty seated to left, with fasces and shield; 13 stars & date. The handsome design by Paquet. Reverse: 50 CENTS in wreath. Reeded edge. AW-288. Silver proof. About 100 minted. Cost Farouk \$45.
1004. **1863 Pattern coin for a silver dollar**. Just like the type adopted 3 years later, in 1866, with motto IN GOD WE TRUST on scroll over eagle. Indeed very interesting! AW-369, rarity 12. Only 7 believed to have been struck. Aluminum proof. Lacking in nearly all big collections of the past 20 years. \$90.
1005. **1868 pattern 10 cents**. Size of large cent, and the obverse design from the identical hub used for the 1844-57 large cents, with Liberty head, stars, & date. Rev. almost like large cent too, but with TEN CENTS within wreath. AW-669. Proof struck in nickel. Some collector of large cents or dimes will be proud to add this piece, strikingly interesting and valuable. \$50.
1006. **1868 pattern 5 cents**. Obverse with Liberty head similar to regular 3c nickel coinage, but the coin larger (size of 5c nickel). Rev. 5 CENTS in laurel wreath, word CENTS slightly curved. Motto "In God we Trust" in very small letters above. AW-682. Aluminum proof, with wire edge. Not very rare in copper or nickel, but ex. rare in aluminum. Only 6 to 8 coined. \$40.
1007. **1870 pattern half-dollar**. Liberty head r., with bandeau ribbon on head inscribed

LIBERTY, one star on forehead, motto on scroll below; around UNITED STATES OF AMERICA. Rev. 50 CENTS in wreath; STANDARD SILVER 1870. Reeded edge. AW-904. Copper proof. Only 25 sets struck, and sold in sets at the mint then, the sets including quarters & dimes also. Much scarcer than the 1869 issues. \$35.

1008. **1870 pattern half-dollar.** Obverse as last. Reverse: 50 CENTS 1870 within corn & cotton wreath, STANDARD above. Reeded edge. AW-924. Copper proof. Of same rarity as last. This coin, and the lot preceding, and the one following, are of handsome design by William Barber, and illustrated a new coin project. The intention was to reduce the weight of U.S. silver coins to prevent hoarding and importation, so that their value should depend upon the authority of their issue rather than upon their bullion value. Weight of the 50c silver was to be 154 grains instead of the legal 192 grains. Of course the project and designs were never adopted by the committee, thus remain as "pattern coins". Col. Curtis, an authority on the subject, found only 1 of this variety in 5 years. \$40.
1009. **1870 pattern half-dollar.** Turban head in helmet, with 2 stars on forehead. Rev. 50 CENTS in wreath, STANDARD SILVER above, date below. Reeded edge. Rare variety with "B" for artist William Barber in field above L in LIBERTY. Aluminum proof. Unknown to Adams or Woodin. (About 15 were coined in silver, AW-913). May be unique. \$50.
1010. **1872 trial impressions of dime, struck in copper.** Regular dies, reeded edge. AW-1268. Rarity 13, not over 4 or 5 minted. Red proof. It takes many years to find one of these. I can find but one listed in last 10 years, and this is very likely the same coin, from King Farouk. \$50.
1011. **1874 five cents, regular dies, struck in copper** on thin planchet. AW-1392. Rarity 13, only 4 or 5 minted, and none found in any catalogue for some years. Proof, cleaned. \$40.
1012. **1875 pattern Commercial Dollar.** A very beautiful design, Liberty seated by seashore on globe inscribed LIBERTY, flags

behind, and holding out olive branch in right hand. 13 stars around, date below; motto IN GOD WE TRUST on scroll between Liberty and date. Rev. COMMERCIAL DOLLAR, weight & fineness all within wreath, GOD OUR TRUST on ribbon at base of wreath; and above UNITED STATES OF AMERICA. AW-1421. Struck in copper, brilliant perfect proof, with high wire edge. Only 8 minted. In the class of trade dollars, a very rare gem. Only 1 found listed in many years and this is probably the same coin. \$75.

1013. 1879 pattern half-dollar. The Morgan design, similar to the silver dollars from 1878 to 1904, except E. PLURIBUS UNUM is placed in front and back of head, and stars above. Rev. spread eagle, UNITED STATES OF AMERICA HALF DOLLAR around, and in field in small letters IN GOD WE TRUST. Reeded edge. AW-1618. Silver proof. No record of any offered in recent years. An extremely rare coin, not over 10 or 12 minted. \$100.
1014. 1942 cent. Regular dies. Trial piece in white metal. Unc. \$20.
